

Late Summer Hike. Next Thursday.

On Thursday, September 24th Weston Walks will tackle Popp Mountain in Trout Brook Valley. This is, by some estimates, the toughest climb in Weston. The view from the top overlooks the reservoir from the dam to its far reaches in Redding. We will go slowly. After the climb we may choose one of several possible routes that explore other sections of Trout Brook including Crow Hill.

We will meet at 10:00 AM at the Bradley Road Parking lot. The hike is rain or shine. Please be advised that it is bow-and-arrow hunting season. While our route will avoid hunting areas it is still a good idea to wear bright orange or other highly visible clothing.

The hike leader is Ray Rauth or members of the Bicycle and Pedestrian Committee.

Weston Walks is a consortium of the Weston Bicycle and Pedestrian Committee, the Senior Center and Parks and Recreation.
